Cable - Data cable (5e, 6 & 6A), Fibre Optic connections, WiFi and WiFi/ Infrared building links

Resource - interconnections for IT, computers, telephone systems, CCTV, Fire & Security, audio visual, music & home management

Specialist Resource - UPS (Uninterruptable Power Supplies), PDU (Power Distribution Units), CCTV and home management systems

Specialist Services - Communications cabinet installation, changes and rebuilds - creating order amongst chaos

Locations - single & multi level offices (1 - 1000 staff), warehouses, campus buildings, Cathedrals, stately homes, listed buildings, schools

Sectors - Public & Private sector

Testing & Inspection - all ONA installations are tested and ONA review existing cabling infrastructure to ensure industry conformity and performance

Audio Visual Systems - Interactive screens, whiteboards and projectors
IT interconnection audits – rationalising your resource and creating opportunity for cost savings

Are you moving office?

We can manage your move; liaison with service providers, removal of your existing equipment, new site inspections and installation - IT, telephony, broadband, communication cabinets

We supply any IT consumables

such as RJ45 leads, fibre leads, AV extenders and repeaters and almost any IT related cable or widget you can think of

In fact, if you need to interconnect any IT equipment, ONA are the people to advise and implement this for you

INTERCONNECTION - it's what we **KNOW**, it's what we **DO** and it's what we **SPECIALISE** in!

Let's get **INTERCONNECTED**.
