

Top Safety Accreditation

Open Network Associates Ltd is one of the latest group of successful companies to join a leading edge scheme, designed to help industry improve its safety record.

Those companies meeting the high standard are included on a database, which is accessible to registered users only via a website, www.safecontractor.com.

We are delighted to announce that we have received accreditation from SAFEcontractor, a programme which recognises very high standards of health and safety practice amongst UK contractors.

John Kinge, Head of Risk at SAFEcontractor said, "Major organisations can no longer run the risk of employing contractors who are not able to prove that they have sound health and safety policies.

Employing a skilled team of engineers, Open Network Associates Ltd is principally involved in the installation of computer network and IT cabling.

"More companies need to understand the importance

The firm's director, Roy Adair, says, "We are delighted to achieve this accreditation which recognises the high standards of health and safety practice that we set."

of adopting good risk management in the way that Open Network Associates Ltd has done. The firm's high standard has set an example, which hopefully will be followed by other companies within the sector".

Employer-organisations who sign up to the scheme can access the database, which enables them to vet potential contractors before they even set foot on site. These employers agree that, as users of the scheme, they will engage only those who have received accreditation.
